nikema@popschools.com
https://github.com/prophen

Summary

A generalist technologist with the ability to adapt and pick up new skills as needed. Experience working synchronously and asynchronously on distributed, agile, teams. Practical experience of soliciting, gathering, evaluating and implementing feedback for effective collaboration and teamwork.

Work History

Founder + CEO
PopSchools, Inc.
2017 – Present

PopSchools, Inc. is a for-profit, social impact venture and community created to holistically support early-career technologists. As founder of PopSchools, my roles include community management, social media marketing, product management, and web development.

Projects

Daily-js Video Call App
April 2020

Using the Daily-js API and prebuilt call UI, I created an app that added a hand raising feature to a video call that runs in the browser.

Tech stack: HTML, CSS, Vanilla JS, Netlify
Repo: https://github.com/prophen/NavyUniformRoute
Deployed app: https://navyuniformroute--prophen.repl.co/

The Collab Lab *Developer, Cohort 3*
December 2019 - February 2020

For eight weeks, I worked collaboratively on a team of four developers to build and deploy a smart shopping list app. The app was built using functional components in React and Semantic UI. My most significant contributions to this project were setting up global state using the useContext hook and creating, then coding the design.

Tech stack: React, Firebase, Netlify
Repo: https://github.com/the-collab-lab/tcl-3-smart-shopping-list
Deployed app: https://tcl-3-smart-shopping-list.netlify.app/

Technical Skills

Database Management
Relational Databases, NoSQL, MongoDB, Firestore, MySQL, MS Access

Languages/Frameworks
JavaScript, HTML, CSS, Less, Swift, React.js, Semantic UI, Node.js, Java, C#, PHP, WordPress

Web Servers/Serverless Deployment
Netlify, Heroku, Vercel, Firebase, Google Cloud

Education

Sacramento City College
2007 – 2012

Certificate of Achievement, Web Developer
Relevant coursework: Database Programming, Designing Accessible Websites, Middleware Web Scripting, Object Oriented Programming JAVA
